

**January 24, 2013: McLean County Greenways Advisory Committee Meeting**

The McLean County Greenways Advisory Committee met on Jan. 24 at Uptown Station in Normal. The committee reviewed proposals for a public education initiative on greenways.

The effort will include increased outreach and information sharing with McLean County conservation agencies, possible greenway presentations to local clubs and organizations and development of a local greenways newsletter in electronic format hosted on the McLean County Regional Planning website. It was reported the State of Illinois hosted a kick-off event for promotion of the Illinois State Bicycle Plan in January. The state plan is a joint project of IDOT and IDNR. Alta Planning and Design of Chicago have been chosen as the project consultant.
